FMC Corporation to Raise Prices of S-Carb[®] Sodium Sesquicarbonate and Feed Grade Sodium Bicarbonate

PHILADELPHIA, October 15, 2009 – FMC Corporation (NYSE:FMC) announced today that it will increase, effective December 1, 2009, or as contract terms permit, off-list prices for feed grade sodium bicarbonate by \$20/ton and off-list prices for S-Carb[®], purified sodium sesquicarbonate by \$10/ton. Pricing for all animal nutrition customers is quoted on an FOB Westvaco, Wyo., basis. All other contract terms will remain unchanged.

“This increase is necessary to offset increases in raw material and processing costs and to allow continued investment in production reliability,” stated Wendy Plocher, animal nutrition industry manager, FMC Alkali Chemicals Division. “FMC remains strongly committed to being a reliable supplier of quality products to the animal nutrition industry.”

FMC Corporation is a diversified chemical company serving agricultural, industrial and consumer markets globally for more than a century with innovative solutions, applications and quality products. The company employs approximately 5,000 people throughout the world and operates its businesses in three segments: Agricultural Products, Specialty Chemicals and Industrial Chemicals.
