Dear Valued Customer:

FMC Corporation has conducted a study to determine whether latex comes in contact with process flow streams during our sodium bicarbonate manufacturing process. To complete our study, we examined all of equipment and ancillary items that may come in contact with the final product. To our knowledge no latex comes in contact with the product during manufacture or as it is packaged at our Green River facility.

Please contact me at (307) 872-2271 if you have any questions.

Sincerely,

Steve Hickerson
FMC Corporation
