Dear Valued Customer:

The FMC sodium bicarbonate products described below have been tested and certified by the National Sanitation Foundation (NSF) as direct drinking water additives. Their use is for corrosion and scale control. NSF's approval may be viewed by going to the NSF web page at www.nsf.org and conducting a search by manufacturers using the letters FMC. The product listing is under FMC Corporation – Standard 060 – Drinking Water Treatment Chemicals – Health Effects.

	Dosage <u>mg/L</u>
USP-FCC and Industrial Grades #1, #2, #4, #5	100 max.
Coarse Bicarb	100 max.

The certification continues with the product as long as it remains in its original unopened container from FMC's plant in Green River, Wyoming.

Please contact me at (307) 872-2271 if you have any questions.

Sincerely,

Steve Hickerson
FMC Corporation
