June 24, 2010

Dear Valued Customer:

FMC sodium bicarbonate USP in bags meets the chemical specifications of the Food Chemicals Codex, Sixth Edition, 2008, and the U.S. Pharmacopeia – National Formulary (USP-32, NF-27). Approval for use of sodium bicarbonate as a direct food ingredient by the FDA is detailed in the Code of Federal Regulations. The FDA has affirmed Sodium Bicarbonate USP as generally recognized as safe (GRAS) in 21 CFR 184.1736. FMC's sodium bicarbonate is produced in a GMP compliant facility. Our FDA Food facility registration number is 1000117418.

For the purposes of 21 USC Paragraph 303(c)(2), FMC guarantees that sodium bicarbonate USP is not adulterated or misbranded when shipped. FMC further guarantees that, as of the date of each shipment, sodium bicarbonate USP may be introduced into interstate commerce under the current provisions of the Act. This guarantee continues with the product only as long as the product remains in the original unopened container from FMC's plant in Green River, Wyoming.

This Guaranty shall, however, be void and of no effect in any instance where the particular use by you or your customer of any article to which this Guaranty would otherwise apply is a use which is not in accordance with the requirements of the Federal Food, Drug and cosmetic or applicable state law.

This Guaranty shall be a continuing Guaranty and shall continue in effect until such date as you shall receive from FMC notice of the revocation of the Guaranty contained herein.

Sincerely,

Robin Avery
