June 9, 2008

Dear Valued Customer:

FMC sodium sesquicarbonate has been tested and certified by the National Sanitation Foundation (NSF) as a direct drinking water additive under ANSI/NSF Standard 60, Drinking Water Treatment Chemicals-Health Effects. Its use is for corrosion and scale control.

Sodium Sesquicarbonate

Dosage  
mg/L  
100 max.

The certification continues with the product as long as it remains in its original unopened container from FMC's plant in Green River, Wyoming.

Sincerely,

Steve Hickerson  
FMC Corporation
