

Technical Data

Sodium Bicarbonate

Feed Grade

Generally Regarded as Safe for Humans and Animals

Formula	NaHCO ₃
----------------	--------------------

Molecular Weight	84.01
-------------------------	-------

Chemical Properties

	Typical
Na, wt %	27%
NaHCO ₃ , wt %	100%

Particle Size Distribution

Screen Size	Cumulative % Retained (typical)	
	Minimum	Maximum
USS 100 (150 μm)	5	80
USS 200 (75 μm)	20	100
USS 325 (45 μm)	50	100

General Properties

Typical bulk density, lb/ft ³ (kg/m ³)	65 (1041)
Particle density, g/cm ³	2.22
Appearance	White crystalline powder

Standard Containers

50 lb (22.7 kg) bags
One ton super sacks
Bulk hopper cars and trucks

Uses

Dairy and beef ration
Sodium source for poultry and swine

The information contained herein is, to our knowledge, true and accurate. Because conditions of use are beyond our control, we make no warranty or representation, expressed or implied, except that the products discussed herein conform to the chemical descriptions shown on their labels. Nothing contained herein should be construed as permission or recommendation to infringe any patent. No agent, representative, or employee of this company is authorized to vary any of the terms of this notice.
